## About LIFE IN HARMONY PROMOTION MONTH

Do you know how many foreign nationals live in Japan?  
Approximately 3.22 million foreign nationals live in Japan (as of the end of June 2023).

The number of foreign residents in Japan is increasing year by year, and their countries and regions of origin are becoming more diverse.

In the future, it will be important for all residents in Japan to overcome differences in nationality and culture, understand and respect the diversity of the people, and coexist in harmony. Therefore, starting from 2024, we have designated January of each year as "LIFE IN HARMONY PROMOTION MONTH".

"LIFE IN HARMONY" is a name that expresses the idea that people of different nationalities and cultures should live together in harmony, and the aim is to develop nationwide efforts to realize a society in which people in Japan coexist harmoniously with foreign nationals.

## About ALL TOGETHER FESTIVAL

"ALL TOGETHER FESTIVAL" is an event created to liven up "LIFE IN HARMONY PROMOTION MONTH".

The theme of the event is "Enjoy! Learn! World Cultures and a Society of Harmonious Coexistence" and there will be many exhibitions, workshops, and performances where visitors of all nationalities can have fun while experiencing the culture and customs of other countries and think about realizing a harmonious society with people of all backgrounds.

Let's take this opportunity to see, hear, touch, and become familiar with a society where we live in harmony with foreign nationals.

## What are the three visions for an ideal society of harmonious coexistence with foreign nationals?

In June 2022, Japan formulated "Roadmap for the Realization of a Society of Harmonious Coexistence with Foreign Nationals", which describes visions for an ideal society of harmonious coexistence with foreign nationals, the issues that must be addressed to realize these visions, and the specific efforts to achieve this goal.

This Roadmap presents Japan's three visions for an ideal society of harmonious coexistence with foreign nationals.

1

### Safe and Comfortable Society

A society where foreign nationals are included as members of the Japanese society of the future, and where all people can live safely and comfortably.

2

### Diverse and Vibrant Society

A diverse and vibrant society where all people, including foreign nationals, from various backgrounds can participate and demonstrate their abilities to their fullest.

3

### Society that Respects Individual Dignity and Human Rights

A society where all people, including foreign nationals, respect each other's individual dignity and human rights and can live without discrimination or prejudice.

**Let's all work together toward this ideal society of harmonious coexistence!**
